

A cosmic scene featuring two large, interacting galaxies. The galaxy on the left is a bright, yellowish-white spiral with a prominent central core. The galaxy on the right is a reddish-orange, irregularly shaped galaxy, possibly a dwarf galaxy or a galaxy in the process of merging. The background is a deep black space filled with numerous stars of various colors and sizes, some with prominent diffraction spikes. The overall composition is centered horizontally, with the galaxies occupying the middle ground.

OPTICAL TWEEZERS

In 2018, the inventors of a ground-breaking laser technology, known as 'optical tweezers', were awarded the Nobel Prize in physics.

Optical tweezers (originally called single-beam gradient force trap) are scientific instruments that use a highly focused laser beam to hold and move the microscopic and sub-microscopic objects like atoms, nanoparticles and droplets, in a manner similar to tweezers. Optical tweezers are used in biology, medicine and materials science to assemble and manipulate nanoparticles such as gold atoms.

Like the **tractor beams** that Captain Kirk of Star Trek uses to capture enemy starships, optical tweezers are a fascinating tool that boggles the imagination and opens up great possibilities thanks to its ability to grab and examine what would normally be untouchable tiny pieces of matter – from DNA to viruses to organelles to red blood cells.

ZERO-POINT ENERGY

Zero-point energy (ZPE) is the **lowest possible energy** that a quantum mechanical system may have. Unlike in classical mechanics, quantum systems constantly fluctuate in their lowest energy state as described by the Heisenberg uncertainty principle.

Zero-point energy could be the greatest gift the quantum world can ever give us. It's a byproduct of the fact that subatomic particles don't really behave like single particles, but like **waves constantly flitting between different energy states**. This means even the seemingly empty vacuum of space is actually a roiling sea of virtual particles fluctuating in and out of existence, and all those fluctuations require energy.

If there's as much energy in those fluctuations as some — though definitely not all — physicists believe, and if we could ever learn how to tap into this phenomenon, we would gain access to an unparalleled source of energy. Zero-point energy could power the planet with the strength of multiple suns, making it easy for us to solve Earth's energy problems forever or to travel beyond the solar system and take our place among the stars.

INTRODUCTION

ELEMENT 115 – MOSCOVIUM

Moscovium is a synthetic element with the symbol Mc and atomic number 115. It was first synthesized in 2003 by a joint team of Russian and American scientists at the Joint Institute for Nuclear Research (JINR) in Dubna, Russia. In December 2015, it was recognized as one of four new elements by the Joint Working Party of international scientific bodies IUPAC and IUPAP. On 28 November 2016, it was officially named after the Moscow Oblast, in which the JINR is situated.

Moscovium is an extremely radioactive element: its most stable known isotope, moscovium-290, has a half-life of only 0.65 seconds. In the periodic table, it is a p-block transactinide element. It is a member of the 7th period and is placed in group 15 as the heaviest pnictogen, although it has not been confirmed to behave as a heavier homologue of the pnictogen bismuth.

Element 115 was only discovered in 2003, but it may sound familiar because the name has been around for decades in connection with UFOs, aliens and other related phenomena. Element 115 was already announced in 1989 when **Bob Lazar**, famous area 51 whistleblower revealed to the public that the UFOs possessed by the government were powered by a mysterious '**Element 115.**'

CONTACT CATEGORIES

Classifications for different close encounters with UFOs and 'entities' by DIA

UNCLASSIFIED//~~FOR OFFICIAL USE ONLY~~

MA RATING

Describes behavior of a UFO. It is analogous to the Nocturnal Light, Daylight Disk and Radar Visual Hynek classifications.

- MA1** A UFO has been observed which travels in a discontinuous trajectory. i.e. vertical drops, maneuvers or loops.
- MA2** MA1 plus any physical effects caused by the UFO.
- MA3** MA1 plus any entities observed on board. i.e. the airship cases of the late nineteenth century.
- MA4** Maneuvers accompanied by a sense of reality transformation for the observer.
- MA5** A maneuver that results in a permanent injury or death of the witness.

FB RATING

Fly-by rating.

- FB1** A simple sighting of a UFO traveling in a straight line across the sky.
- FB2** FB1 accompanied by physical evidence.
- FB3** A fly-by where entities are observed on board (rare).
- FB4** A fly-by where the witness experienced a transformation of reality into the object or its occupants.
- FB5** A fly-by which the witness would suffer permanent injuries or even death. i.e. CASH/LANDRUM CASE.

CE RATING

Close Encounter rating. Similar to the Hynek Close Encounter ratings.

- CE1** UFO comes within 500 feet of the witness, but no after effects are suffered by the witness or the surrounding area.
- CE2** A CE1 that leaves landing traces or injuries to the witness.
- CE3** Entities have been observed on the UFO.
- CE4** The witness has been abducted.
- CE5** CE4 which results in permanent psychological injuries or death.

3} HIPAA Compliance of this Study - HIPAA: Acronym that stands for the Health Insurance Portability and Accountability Act, a US law designed to provide privacy standards to protect patients' medical records and other health information provided to health plans, doctors, hospitals and other health care providers. Developed by the Department of Health and Human Services, these new standards provide patients with access to their medical records and more control over how their personal health information is used and disclosed. They represent a uniform, federal floor of privacy protections for consumers across the country. [49]

CE1 - UFO comes within 500 feet of the witness, but no after effects are suffered by the witness or the surrounding area.

CE2 - A CE1 that leaves landing traces or injuries to the witness.

CE3 - Entities have been observed on the UFO.

CE4 - the witness has been abducted.

CE5 - CE4 which results in permanent psychological injuries or death.

UNEXPLAINED AERIAL PHENOMENA (UAP)

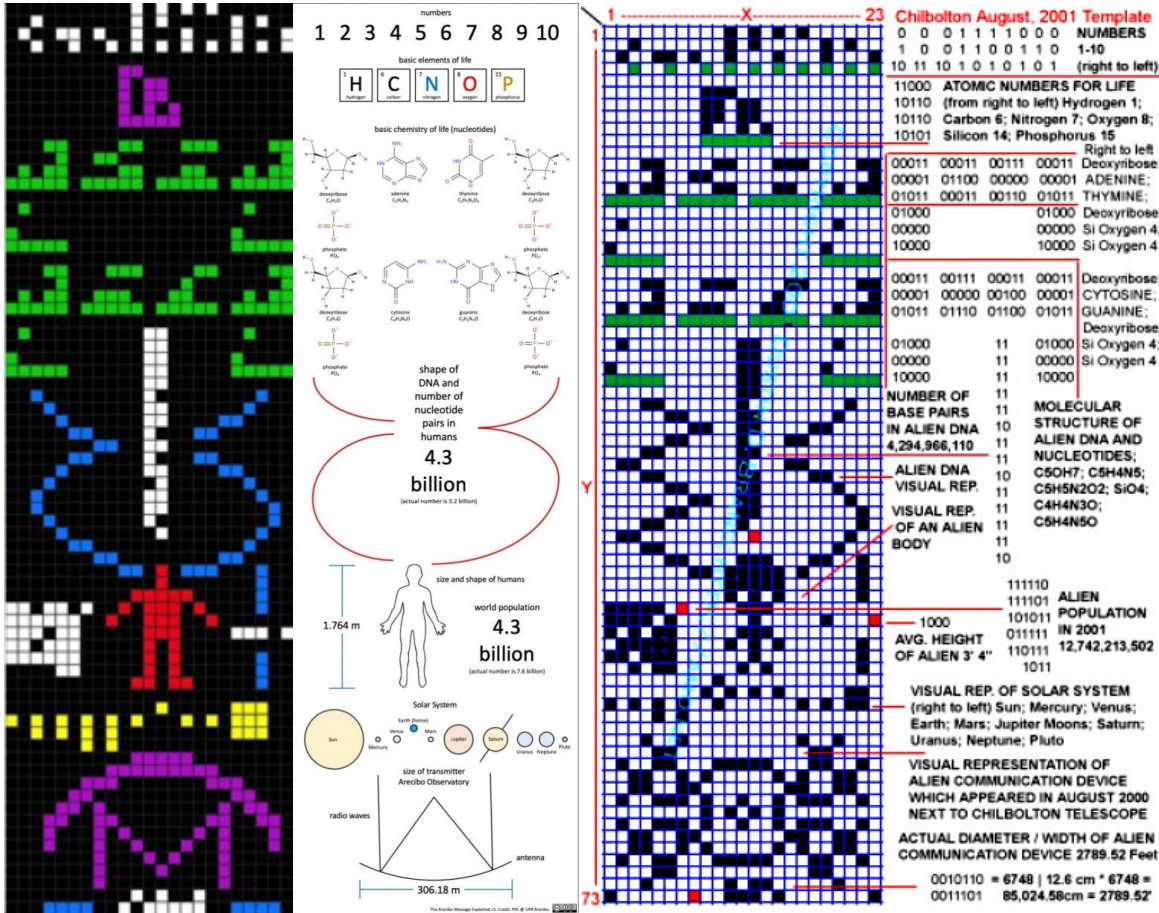

First UFO Hearing in Half a Century

Pentagon officials testifying at a House subcommittee hearing on May 17, 2022 showed a previously classified video of an unidentified aerial phenomenon, a fleeting color image of a reflective spherical object speeding past a military fighter jet.

The congressional hearing was the first in more than a half-century to focus on military reports of **unexplained phenomena** — the current term for U.F.O.s. A database of reports of UFOs now includes about 400 incidents, up from 143 assessed in a report released about a year ago, said Scott Bray, Deputy Director of Naval Intelligence at the hearing.

CROP CIRCLE MESSAGES

Chilbolton crop circle - Did extraterrestrials answer Arecibo message sent in 1974?

ALIEN MUMMIES OF PERU

In 2017, Russian researchers from St Petersburg found a three-fingered mummy in a Peruvian tomb. The researchers claim that Maria, a 5th century mummy, has a different anatomical structure to humans.

"The tissue has biological nature and their chemical composition indicated that they are humans. Their DNA features 23 pairs of chromosomes, just like we have. All the four of them are males, each with a Y-chromosome. They appear human but they are not. Their anatomic structure is different. Maria could have been representatives of a certain race which had possibly reached a stage of advancement much earlier than we did. Maybe thousands of years earlier," said Professor Konstantin Korotkov from the Russian National Research University.

WHAT IS UNKNOWN?

VOYNICH MANUSCRIPT

Written in Central Europe at the end of the 15th or during the 16th century, the origin, language, and date of the Voynich Manuscript—named after the Polish-American antiquarian bookseller, Wilfrid M. Voynich, who acquired it in 1912—are still being debated as vigorously as its puzzling drawings and undeciphered text. Described as a magical or scientific text, nearly every page contains botanical, figurative, and scientific drawings of a provincial but lively character, drawn in ink with vibrant washes in various shades of green, brown, yellow, blue, and red.

The book's language has eluded decipherment, and its elaborate illustrations remain as baffling as they are beautiful. For the first time, this facsimile, complete with elaborate folding sections, allows readers to explore this enigma in all its stunning detail, from its one-of-a-kind “Voynichese” text to its illustrations of otherworldly plants, unfamiliar constellations, and naked women swimming through fantastical tubes and green baths.

New 世界初「UFO評価判定基準」を決定!

国際未確認飛行物体研究所事務局です。

先日、開催しました月刊ムービーとのコラボ企画「UFOの破片」特別企画展には、5日間で1,000名を超える、たくさんの皆様においていただきありがとうございました。第二弾は12月21日(火)～@UFOふれあい館

さて、これまでUFO研究所にお寄せいただきましたUFO目撃情報は、国内外から200件を超え、この情報をリスト化し、分析を進めてまいりましたが、UFO研究所として、これらの情報をマッピングし、カテゴリー分類することで、さらに精度の高いUFO目撃情報とするため、世界初の「UFO評価判定基準」を策定いたしました。

今後は、皆様からお寄せいただいたUFO目撃情報を当UFO研究所が当該基準に基づき、判定をさせていただきます。

引き続き、当研究所のご理解とご支援をいただきますようお願い申し上げます。

.....

【未確認飛行物体 (UFO) 評価判定基準】

1 基準制定趣旨

この基準は、国際未確認飛行物体研究所がUFO目撃情報の調査分析を行う際の基準として定め、その情報の評価に基づく分析対象を選定するためのものである。また、国内外から寄せられたUFO目撃情報に対する国際未確認飛行物体研究所としての評価を示すものでもある。

德令哈外星人遗址

德令哈外星人遗址，位于青海省乐都区德令哈市西南40多千米的白公山下。据海西蒙古族藏族自治州政府介绍，北京UFO研究会等单位组织的9位专家学者前往乐都木盆地“外星人遗址”进行科学考察。2016年10月，科研组专程前往德令哈外星人遗址考察并详细地对铁质管状物进行观察、拍照和取样检测。

德令哈外星人遗址内白公山呈金字塔形，高50多米，其岩石为锈黄色泥砂岩。在山的正面有3个三角形洞穴，中间的洞穴最大，洞口高约2米，洞深约6米，洞内最高处近8米，其左右两边的洞穴由于岩土塌落与堆积，已无法辨认和入内。白公山洞内最深有一根直径约40厘米的铁质管状物从山顶部直通到山底，另一根相同口径的铁质管状物从山的侧壁直通地下，只露出管口，在洞口之上，还有10余根直径大小不一的铁质管状物穿入山体之中，经过野外观察和室内检测研究得出结论，这些铁质管状物是树木化石。

中文名	德令哈外星人遗址	开放时间	全年9:00—18:00
地理位置	青海省乐都木盆地中德令哈市白公山下	门票价格	20元
气候条件	温带季风气候	著名景点	沙漠怪圈

INCASSABLES

Une momie extraterrestre aurait été retrouvée au Pérou

By FRÉDÉRIC PEREIRA 2 Juillet 2017

Le Pérou se retrouve au cœur d'une étrange affaire. Une momie extraterrestre aurait en effet été retrouvée sur un site de fouille. Le conditionnel n'est évidemment pas là par hasard.

L'artefact aurait été retrouvé sur un chantier situé dans la région de Nazca et donc dans la zone semi-désertique située entre la Cordillère des Andes et l'Océan Pacifique. Très en vue, la région est notamment connue pour avoir abrité durant plusieurs siècles la culture pré-incasique du même nom, une culture à qui l'on doit ces immenses géoglyphes tracés à même le sol.
